### **Design Delight at Double Award Nomination**

AN innovative small design company has been nominated for two prestigious business awards.

Hillington based NSDesign, has been short-listed in two categories in this year's ROCCO awards.

The annual awards from Renfrewshire Chamber of Commerce give recognition to hard work, innovation and business excellence.

To be a finalist in not one but two categories has been the icing on the cake for NSDesign which has enjoyed one of its busiest years to date.

Managing Director Gary Ennis said:

“We were delighted to hear that NSDesign has been confirmed as a finalist for not one, but two prestigious ROCCO awards in the categories of Corporate Social Responsibility & Outstanding Performing Business.

”These awards are really important with previous winners including the likes of Glasgow Airport and Diageo. 2008 has been a great year for the company and being in the running for these awards just tops it off nicely.”

NSDesign provides internet solutions with a wide range of web design, domain registration and hosting products for its customers who include Greenock Morton FC, The Lighthouse (Scotland's Centre for Architecture and Design) and Cardwell Garden Centre.

Gary said

“We may be a small company with less than ten members of staff but we provide internet services to thousands of clients. These include government bodies, universities, public and private sector institutions, small to medium sized businesses and personal clients.

More.../

“We are a growing company and our customer care is unrivalled which is why over half of all our new business comes direct from customer referrals. Winning either of these awards would just cement our reputation further.”

The winners of the ROCCO awards will be announced at a gala dinner on Friday November 14<sup>th</sup>.

### **About NSDesign**

NSDesign has been helping businesses and organisations maximise their success online since 1999, and is now based at the award winning Hillington Park Innovation Centre.

The company designs innovative products and services that allow their clients to do things better on the web, ranging from initial domain name registration and web hosting, to custom web development, ecommerce systems, internet marketing and training, and deliver these solutions to a range of clients from start-up companies to government bodies and universities.

The focus is strongly on accessibility and usability, providing the tools to empower users with full control over their account, backed by in-house expertise to rely upon when required.
